Delays in Swift Processing

Delays in upload of Swift Messages into our Settlement System

22 November 2024

We are currently experiencing delays in the processing of Swift messages. Our IT team is working to fix the problem as quickly as possible. There is still a backlog of messages that needs to be processed.

In any case we will try to meet today's cut-off times and avoid any failing settlements (16:00 for DVP/RVP and 18:00 for D/R-free).

We will inform you as soon as the processing of the backlog is completed.

Impact on investors: Upload of incoming Swift messages in our Settlement System delayed
